The **MICRO-TRAINS[®]** LINE **Micro-News[®]**

January 2008

Colorado & Southern Road Number C&S 4507

This 30' gondola is painted box car red with white Colorado & Southern herald and lettering. It was built in 1910 and serviced in April 1937. It runs on Bettendorf trucks. Commonly called coal cars, these cars were actually used for hauling ore, scrap iron, lumber and ballast, in addition to coal. The series 4498-4547 was the first group of steel framed gondolas built by C&S. Many of these gondolas were later converted to flat cars.

Second road number releases next month

Burlington Northern Santa Fe Road Number BNSF 714083

This 50' rib side box car with plug door and no roofwalk is painted box car red with white Burlington Northern circle cross and lettering. It was built in March 1975 and runs on roller bearing trucks. This car is one of over 400 cars in its series. Paint schemes varied somewhat within the series, suggesting the series may have been comprised of many similar cars not necessarily built at the same time or part of the same build order.

#027 00 300...\$15.20

Delaware & Hudson Road Number D&H 57

This 39' single dome tank car is painted hopper red with yellow logo and lettering. It was built in October 1937 and serviced in 1976. It runs on Bettendorf trucks. This insulated tank car was used in the transport of molasses to feed and grain dealers for use in cattle ranching.

#065 00 650...\$20.45

Cadiz Railroad Road Number CAD 1094

This 50' rib side box car with single door and no roofwalk is painted yellow with blue ends. The sides display blue logos and lettering with white lettering on the ends. It was built by FMC in Portland, OR, in January 1977 and runs on roller bearing trucks. The Cadiz Railroad was built around the turn of the 20th century for the purpose of transporting tobacco to Gracey, KY. According to legend, when the railroad was organized in 1901, a company needed to have at least 10 miles of track. So, founder William Cleland built about two extra miles of curves into the line to ensure Cadiz would have its own rail line.

#025 00 690...\$21.45

Canadian National Road Number CN 401527

This 50' standard box car with plug door and no roofwalk is painted mineral red with one side wearing a white banner, framed in red, with graphics for 18 Canadian newspapers. Lettering is in both black and white. Trucks are Bettendorf. This car was built in 1966 by National Steel Car and serviced in September 1970 when it received its specialized graphics. This car, one of four uniquely decorated, operated as such for a short while to raise awareness of CN's freight transportation role for each item displayed on the car side. For this car it was its role in the transportation of newsprint.

**Baltimore & Ohio®
Road Number B&O 470968**

This 40' standard box car with single Superior door is painted box car red with white lettering and logo. It was built in October 1957 by Pullman Standard and serviced in September 1968. It runs on black Bettendorf trucks. B&O had two groups of cars built for its "Time Saver Service." The first group was a 600 car fleet (series 470000-470599) built by ACF and classed M-66. This car represents the second group B&O of 400 cars built by Pullman Standard. The Time Saver Service is how B&O promoted their high speed scheduled LCL (less than car load) freight service.
